

cosmopolitan essential

To be sustainable...

Living the present, understanding the past and envisioning the future, respecting time, thinking, and acting for the well-being of this and future generations.

Knowing how to plant, cultivate, face challenges, and reinvent paths, this has been our mantra.

The production and circulation of our mannequins mirror the mechanisms of natural ecosystems, in an integrated and continuous process of creation, reabsorption, recycling, and new circular flows of renewal, developing economically viable and ecologically efficient products.

PLEX - T

BIO - PLEX

Inspired by the purpose of valuing a more balanced and natural connection with our ecosystem, the mannequins are made with our **exclusive PLEX-T resin** (tested and approved in the market for over two decades), and their material is **unbreakable, biodegradable and 100% recyclable**. Afterward, these mannequins can be **returned** to us and **transformed** into raw material, within a sustainable cycle of continuous utilization.
