

Mannequin Experts and Innovators

Expor Manequins has been, since its beginning, a pioneer company that has innovation in its DNA, as well as the purpose of understanding the essence of its customers to create the best mannequins in the market.

For over half a century, Expor has been seeking to innovate, reinvent and redefine concepts and visual merchandising projects, consolidating its brand and building an important legacy, with credibility, ethics and trust.

In addition to offering personalized service, its products are of high quality and durability, produced sustainably and environmentally responsibly.

Connected to the World.

Connected to the **global market** and its demands, Expur has been expanding its customer base worldwide, allocating **47% of its production to foreign markets**, reaching all continents.

INNOVATION AND DEVELOPMENT

Always evolving.

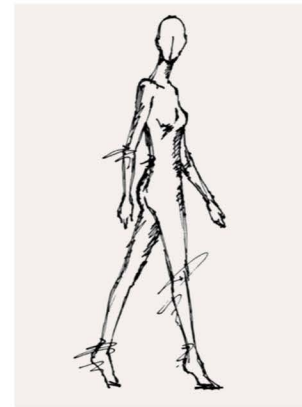

Expor has its own **research laboratories** for the development of **new technologies**, materials, and **exclusive collections**.

It is a **pioneer** company in Latin America in the production of mannequins created in its **3Dlab**, using **3D digital scanning** of real models and produced in its state-of-the-art **3D printers**.

Committed to environmentally responsible production, it has developed its own eco-friendly water based ink, made from reused water, solvent-free, with low VOC (volatile organic compounds) emissions, providing greater durability and impact resistance.

It developed over two decades ago its exclusive **Plex-T resin**, a high-performance, ultra-resistant material that does not require painting, does not peel, and is **100% recyclable**.

Caring for our planet, now.

Being sustainable... Living the present, understanding the past, and envisioning the future, thinking and acting for the well-being of this and future generations.

Plex-T

Inspired by the purpose of valuing a balanced connection with our ecosystem, Expor produces mannequins with its exclusive Plex-T resin, which are lighter and more resistant than others. After use, they can be transformed into raw material in a sustainable cycle of continuous use.

SOLAR PARK

Expor has invested and installed its own Solar Energy Park at its factory, which produces 3.120 Kw/year, providing 100% of electricity for its production.

AQUA PAINT

Aqua Paint is a water-based ink made from reused water, solvent-free, with low emission of pollutant particles and low environmental impact.

Customization

Expor, considering the unique identity of each customer, offers over 2.000 product options and has a team of experts in customization projects to connect with your brand and create solutions for your specific demands.

Create Products.

Currently, Expor Manequins is the largest and most important mannequin factory in Latin America.

Committed to caring for the future today, it constantly seeks to implement new technologies and actions to ensure that its 11.000 m² industrial park and production chain are socially and environmentally responsible, its products are ecologically efficient, and economically viable.

With a factory self-sufficient in renewable energy and total control of its production, it meets the most rigorous global quality standards.

Check out our initiatives and practices!

Make
art.

COLLECTIONS

Diversity and Inclusion

Expoc creates and develops its collection by adding diversity of bodies, culture, art, trends, and cutting-edge technologies to produce **unique mannequins** that generate **incredible results** for our costumers.

Get to know our collections and be amazed by **endless possibilities**.

WOOD PLEX-T.

Combining a flawless fit with our exclusive Plex-T resin, along with recycled **peroba** and **pine** sawdust, we have created this collection that is not only **sustainable** but also features a show-stopping design.

Make a
Difference.
